

Grain Crop Insects: Pests, Beneficials & Resistance

Inverleigh Bowls Club- 20 Railway St, Inverleigh

Join us at this free event to discuss all things grain pests with guest speakers Julia Severi and Lilia Jenkins, Extension Scientists at Cesar Australia.

Refreshments & lunch provided.

Topics include:

- Overview of key mite, aphid and moth pests in grain crops across South-West Victoria, including identification and damage symptoms
- Update on insecticide resistance in major grain pests and what it means for effective control
- Overview of key beneficial insects in grain crops and their role in pest management
- Introduction to the beneficials toxicity table and its use in supporting informed insecticide decisions
