

Smart Decisions

Strategic & Tactical Farm Planning

Hamilton - RIST
915 Mount Napier Rd

13
May
9.00 - 2.00pm

Producers are invited to take part in a free, practical workshop series focuses on supporting practical, whole-farm system thinking to help reduce risk, protect ground cover and make better decisions with season variability. This two-part workshop series is designed to help producers make confident, timely decisions.

Part 1 – Strategic Planning, 13 May, 2026

Focuses on longer-term planning to improve resilience and flexibility across your whole farm system which includes:

- Optimising flock or herd structure
- Setting appropriate stocking rates
- Lambing and calving timing
- Pasture mix decisions
- Managing seasonal variability and pasture growth volatility

Part 2 – Tactical Decision-Making, 11 June, 2026

Focuses on in-season triggers and actions, including:

- Whole-farm pasture cover checkpoints
- Early warning signs of feed shortages or surpluses
- Short-term management options to respond early and effectively
